PROFESSIONAL SUMMARY

Backend Software Developer with production experience in **Java, Spring Boot, Microservices, REST APIs, and PostgreSQL**. Delivered **government-scale applications at NIC (MeitY)** serving **1000+ users** across 5+ departments, with strong ownership of API design, database optimization, RBAC, and Linux-based server management. Proven ability to ship end-to-end features in **Agile** environments across startup and enterprise production systems.

TECHNICAL SKILLS

Languages Java, C/C++, JavaScript, TypeScript, SQL
Backend Spring Boot, Microservices, REST APIs, JPA/Hibernate, RBAC, Authentication, JUnit
Databases PostgreSQL, MySQL, MongoDB
DevOps Linux, Docker, CI/CD, GitHub Actions, PM2, Apache/Nginx, SSL/HTTPS, cPanel
Frontend React, HTML, CSS
Tools Git, Maven, Postman, IntelliJ IDEA, VS Code
Other Google OAuth 2.0, Razorpay, SMTP, Agile, MVC Architecture, OOP

EXPERIENCE

Full Stack Developer & DevOps Engineer | *MOON Startup* Aug 2025 – Jan 2026

- Deployed and managed **3 live production platforms** — wowwoolies.co.in (e-commerce), moonnow.in (startup), mkss.org (NGO) — serving **1000+ active users** with **99.9% uptime**
- Configured Linux servers, Apache/Nginx, SSL/HTTPS, PM2, and DNS; reduced deployment turnaround by **~50%** using zero-downtime CI/CD strategies and automated provisioning

Java Full Stack Developer Intern | *National Informatics Centre (NIC), MeitY* Jun – Jul 2025

- Built and deployed a government application serving **1000+ officials** across **5+ departments**; integrated **8+ REST APIs** using Spring Boot, JPA/Hibernate, and RBAC
- Delivered **3 end-to-end features** (approval workflows, RBAC, system integration) in a **6-week** Agile sprint, reducing manual processing time by **~40%**

PROJECTS

Order Execution Engine | *Backend System* Dec 2025

- Event-driven Java backend using multithreading and concurrent data structures; achieved **sub-50ms** order processing and reduced failure rate by **~40%** via retry logic and transactional exception handling
- Stack:** Java, TypeScript, REST APIs, Concurrency, OOP, Git

WowWoolies | *E-Commerce Platform* Oct – Nov 2025

- Full-stack platform on Linux (PM2, Apache, SSL/HTTPS) serving **1000+ users**; integrated Razorpay, SMTP, Google OAuth 2.0; achieved **SEO score 85+** via structured metadata
- Stack:** MongoDB, Express.js, React (TypeScript), Node.js, Linux, REST APIs

Honorarium Management System | *NIC Internship* Jun – Jul 2025

- Spring Boot + PostgreSQL system managing payments for **1000+ government officials**; reduced SQL query time by **~35%** via indexed joins and JPA/Hibernate ORM optimization
- Enforced RBAC workflows across **5+ departments**; built server-rendered UI using Thymeleaf, Bootstrap, JavaScript, and AJAX with real-time updates
- Stack:** Spring Boot, PostgreSQL, JPA/Hibernate, Thymeleaf, Bootstrap, REST APIs

EDUCATION

Government Engineering College, Ajmer, Rajasthan 2022 – Apr 2026
B.Tech in Computer Science & Engineering **CGPA: 7.45**

Jawahar Navodaya Vidyalaya, Bareilly, Uttar Pradesh 2015 – 2022
Schooling, Classes VI–XII **Class X: 86.4%** | **Class XII: 82%**

ADDITIONAL

- Certifications:** Analysis of Algorithms — Princeton University (Coursera, 2025) | Java Full Stack Development (Spring Boot) — Udemy (2024)
- Assessment:** TCS National Qualifier Test (NQT) — Score: **72.61%** (Feb 2026)
- Patent:** Bluetooth Anti-Theft System (Patent No. 202411093785 A)
- Open Source:** GSSoC 2025 Open-Source Contributor
- DSA:** Solved **500+** problems on LeetCode covering Data Structures & Algorithms
